## CALL FOR APPLICATIONS

Position: **Junior PHP Developer at the ICT Coordination Office**

Available position/s: **2**

Type of Contract: **Indefinite**

Employment type: **Full-time**

Deadline: **Open until filled**

### About the Position

The Junior PHP Developer at the ICT Coordination Office at EPOKA University will work closely with our experienced development team to build and maintain web applications and services. The Junior PHP Developer will have the opportunity to learn and grow their skills while working on diverse and challenging projects that make a real impact. This role is perfect for a motivated individual who is eager to jumpstart their career in PHP development and work in a collaborative and supportive environment.

### Job description

#### Main duties and responsibilities:

- Collaborate with the development team to design, develop, and maintain PHP web applications.
- Write clean, efficient, and maintainable code following best practices.
- Troubleshoot and debug code issues and provide solutions in a timely manner.
- Assist in the integration of third-party APIs and libraries.
- Collaborate with cross-functional teams to understand project requirements and deliver high-quality solutions.
- Stay updated on industry trends and best practices to continuously improve your skills.

**Start Date:** **As soon as possible**

### Qualification Requirements

1. Bachelor's degree in computer science, Software Engineering, or a related field (or equivalent experience).
2. Basic understanding of PHP and web development principles.
3. Knowledge of HTML, CSS, and JavaScript.
4. Familiarity with database systems (e.g., MySQL, PostgreSQL).
5. Strong problem-solving skills and attention to detail.
6. Eagerness to learn and adapt to new technologies and tools.
7. have good written and spoken communication skills with his/her superiors and colleagues;
8. have good capabilities regarding work in group;
9. have very good knowledge of English language, both written and spoken;
